OPĆINA
BOSANSKA KRUPA

BOSANSKA KRUPA

Bosanska Krupa je smještena u sjeverozapadnom dijelu Bosne i Hercegovine. U središtu grada nalazi se Stari grad „Pset“, tvrđava izgrađena u XIII stoljeću koja je tokom burnih krajiških ratova stalno mijenjala svoje vladare. Površina općine iznosi 556 km² i broji oko 32.500 stanovnika. Jezgro općine Bosanska Krupa broji oko 15.500 stanovnika. Graniči s općinom Dvor u Republici Hrvatskoj, te općinama Krupa na Uni, Sanski Most, Bosanski Petrovac, Bihać, Cazin i Bužim u Bosni i Hercegovini. Okružena je s juga planinom Grmeč, a s druge strane relativno niskim pobrđem i površinama visokim 200–300 m. Sredinom grada kroz kotlinu teče rijeka Una pravcem JZ-SI, a s juga Krušnica, njena desna pritoka duga 6 km. Ona u luku obilazi brdo Hum i ulijeva se u Unu na sjevernoj strani grada. Zanimljivo je konstatovati da se rukavac zvan Unadžik u gradu spaja s Krušnicom i tako na SRC „Ada“ tvori veliko riječno ostrvo. Krušnica se ulijeva u Unu pola kilometra nizvodno. U astronomsko-geografskom položaju Bosanska Krupa se nalazi na 44° 53' 6" s.g.š i 16° 9' 31" i.g.d., te na 177 m nadmorske visine. Saobraćajni položaj Bosanske Krupe je vrlo povoljan u odnosu na okolne regije i njihova središta. Unska željeznica i cesta omogućuju brže i jednostavne veze s primorskim i panonskim krajevima. Bosanska Krupa je udaljena od Bihaća i Bosanskog Novog (Novi Grad) po 34 km, od Banja Luke 122, od Zagreba 148, a od Splita 250 km. Ceste sporednog značenja ukrštaju se u krupskoj kotlini s glavnom cestom i prugom duž Une i povezuju Bosansku Krupu sa Sanskim Mostom, Bosanskim Petrovcem i Cazinom. Šume zahvataju najveći dio Krupskog područja i uglavnom su listopadne. Veći dio šumskih površina čine srednje i niske šume, a ima i šikara. Na području planine Grmeč i njenim padinama nalazi se četinarska vegetacija sa smrčom i jelom. Vegetacija počinje u aprilu, a prestaje u oktobru. Temperature iznad 10°C javljaju se u svih 200 dana vegetacionog perioda što je sasvim dovoljno za razvitak svih vrsta šumskog drveća i ostale vegetacije. Šumska prostranstva daju vrlo povoljne uslove za staništa mnogobrojnih životinja. Susreću se vrste divljači poput zečeva, lisica, kuna, vjeverica, divljih svinja, srndaća itd., ali i mnogobrojna pernasta divljač kao što su fazani, orlovi, divlje patke, rode, laste, vrane, svrake itd. Rijeke Una i Krušnica su veoma bogate svim vrstama riba: mladicom, pastrmkom, štukom, škobaljkom ili lipljenom. Ovakva zastupljenost mnogobrojnih vrsta, veličina šumskog prostora i prisustvo rijeka, pružaju velike mogućnosti razvoja lovnog i ribolovnog turizma. Dragulj ovog područja je kristalno čista rijeka Una. Njena ostrva su idealna za kampiranje i logorovanje. U rijeci Uni, prema podacima ovdašnjih ribolovnih društava živi 28 različitih vrsta riba koje znaju doseći i preko 30 kilograma težine.

BOSANSKA KRUPA

Bosanska Krupa is located in the north west of Bosnia and Herzegovina. The Old Town Pset is located in the centre of Bosanska Krupa. The fortress was built in the thirteenth century and since then many rulers changed throughout the turbulent periods of wars in the area of Krajina region. The surface area of the municipality is 556 km² and 32,500 inhabitants live there. 15,500 inhabitants live in town of Bosanska Krupa. Bosanska Krupa Municipality borders with Dvor Municipality in Croatia and municipalities Krupa na Uni, Sanski Most, Bosanski Petrovac, Bihać, Cazin and Bužim in Bosnia and Herzegovina. It is surrounded by mountain Grmeč on the south and with relatively low hilly terrain which is 200–300 metres high on the other side. The Una River flows through the valley (SW-NE direction), while the Krušnica River, about 6 km long right tributary of the Una River, flows from the South. The Krušnica River bends around the hill Hum and flows into the Una River in the north from Bosanska Krupa. It is interesting to note that armet of the Krušnica River, called Unadžik, flows into the Krušnica River and at SRC "Ada" forms a large river island. The Krušnica River flows into the Una River half a kilometre downstream. Geographical coordinates of Bosanska Krupa are: latitude (N) 44 ° 53 '6" North, and longitude (E): 16 ° 9' 31" and it is located at 177 m above sea level. In comparison with other surrounding regions and their centres, Bosanska Krupa has a favourable position in terms of traffic. Una railway and roads allow quick and easy travel to the coastal and the Pannonian regions. Distance between Bosanska Krupa and Bihać as well as Bosanski Novi (Novi Grad) on the other side is 34 km while distance between Bosanska Krupa and Banja Luka is 122km, Zagreb 148 km and Split 250 km. Secondary roads intersect the main road and the railway which passes along the Una River in Bosanska Krupa's valley, and connect Bosanska Krupa with Sanski Most, Bosanski Petrovac and Cazin. The most of the area of Bosanska Krupa is covered by forests and they are mostly deciduous forests. The forests consist of medium and low sized trees, but there are bushes as well. On the mountain Grmeč and its slopes, there are forests which consist of larch trees such as spruce and fir. The forest vegetation starts in April and finishes in October. Temperatures are above 10 ° C and occur during 200 days of growing season, which is quite sufficient for the growth of all types of trees and other vegetation. Forests provide very suitable conditions and it is the habitat of many animals. There are many kinds of wildlife species such as rabbits, foxes, martens, squirrels, wild boars, etc., and also many different birds such as pheasants, eagles, wild ducks, storks, swallows, crows, magpies, etc. The rivers Una and Krušnica are rich with different kinds of fish: sprout, trout, pike and grayling. The presence of many types and sizes of forests as well as presence of the rivers provides a great opportunity for development of hunting and fishing tourism. The crystal clear Una River is the jewel of this area. Una's Islands are ideal for camping. Based on information of local fishing clubs there are 28 different species of fish in the Una River which can weight over 30 kilograms.

Kulturno-historijske i prirodne vrijednosti

Stari grad Bosanska Krupa (PSET)

Tvrđava pod nazivom Mali Pset prvi put se spominje još u XIII stoljeću, i u to vrijeme je predstavljala važno vojno-odbrambenu ulogu između Istoka i Zapada. Kroz svoju historiju stari grad je pretrpio mnogobrojna rušenja ali je uspio sačuvati glavne konture prvobitnog izgleda. Smještena je u samom centru grada Bosanska Krupa. Uz tvrđavu se nalaze katolička crkva, pravoslavna cква i džamija, što nam govori o multikulturalnoj raznovrsnosti ovog grada.

Odmor kao pustolovina...

Klub ekstremnih sportova „URBAN X „ Bosanska Krupa, osnovan je 02.10.2009 godine sa svrhom okupljanja entuzijasta i zaljubljenika u brdski biciklizam sa ciljem unapređenja manje zastupljenih sportova, a naročito brdskog biciklizma na području naše općine. Klub je pokrenulo nekoliko zaljubljenika u ovaj sport koji svoja iskustva žele podijeliti sa drugim ljudima koji žele doživjeti pustolovinu, vole zdrav život i udaljavanje od svakodnevnih poslova i stresnih situacija i prepuštanje prirodi i svemu onom što nam nudi. Okruženje naše općine nescrpan je izvor za uživanje i vožnju brdskog biciklizma. Atraktivne šumske staze i ceste prilagođeni su svim uzrastima i mogućnostima, od rekreativnih pa do profesionalnih sportaša. Uz precizne karte, pisane upute, označene biciklističke staze i savjete naših vodiča moći ćete sami odabrati Vašu pustolovinu i kročiti u labirint prekrasnih šumovitih staza tijekom proljeća, ljeta i jeseni. Naše najčešće destinacije su predjeli planine Grmeč, koja je u velikom dijelu ispresjecana sa šumskim stazama, dužim ili kraćim usponima ali i nagibima za najhrabrije spustaše. Guste šume, proplanci, doline i uzvisine su raj za prave ljubitelje brskog biciklizma, željne dobre pustolovine. Za ovo predstavljanje odabrali smo nekoliko biciklističkih ruta, za koje smatramo da mogu u potpunosti predstaviti prirodna bogatstva i još uvijek sačuvanu prirodu naše općine.

Vacation as an adventure....

Club of Extreme Sports "URBAN X" Bosanska Krupa, was founded on October 2nd, 2009 with the main goal to gather mountain biking enthusiasts and improve less represented sports, especially mountain biking in the area of our municipality. The club was established by several lovers of this sport who decided to share their experiences with other people who want to experience the adventure and healthy life by moving away from daily life and stress, enjoying in the nature and all that nature offers. Surrounding areas of our municipality are the endless source for enjoyment and mountain biking. Attractive forest trails and roads are suitable for all ages and abilities- recreational or professional. With accurate maps, described directions, marked bike trails and advice of our guides you can choose your adventure and step into the maze of beautiful forest trails during spring, summer and autumn. Our destinations are areas of mountain Grmeč which is mostly crisscrossed with forest trails, longer or shorter climbs and slopes for the bravest riders. The dense forests, meadows, valleys and hills are the heaven for the true fans of mountain biking who are eager to experience good adventure. We have chosen several bike routes for this presentation, for which we think that can fully present the natural resources and preserved nature of our municipality.

Biciklistička ruta 1 (Bos.Krupa-Vranjska-M.Radić-Bos.Krupa)

Start iz Bosanske Krupa, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, gdje se silazi sa ceste M14.2 i nastavlja dalje prema selu Radić. Vožnja se nastavlja užim asfaltnim putem u dužini od 6 km vozeći blagim usponima i spuštanjima kroz sela Vranjska i Mali Radić. Pogled se sa lijeve strane pruža na uspone prema višim dijelovima Grmeča, dok sa desne na kanjoj Une i lijevu obalu sa dominantnim uzvišenjima Velika i Mala Gomila. Na putu odvija se vrlo slab saobraćaj, tako da potencijalne opasnosti za učesnike nema. U selu Mali Radić silazi se na tzv. staru Radićku cestu, koja je uslijed slabe upotrebe dosta zapuštena te pruža užitak vožnje brdskog biciklizma cestom na kojoj se smjenjuje kamenje, blato, lokve. Dionica ima više padova i manje uspona, te se ulazi u kanjon potoka Šujnovac koji vodi prema Bosanskoj Krupi. Na dionici ima više mjesta za odmor i razgledavanje potoka u reonu „Pipe“. Dolaskom pred Bosansku Krupu nailazi se na asfaltnu cestu koja strmo silazi prema gradu, gdje se ova ruta i završava. Staza idealna za početnike i rekreativce.

Težina staze: II

Ukupna dužina: 20 km,

Asfalt: 12 km

Makadam 8 km

Visinska razlika: start/cilj 176 m/nm, najviša visina 380 m/nm.

Bike Route 1 (Bos.Krupa-Vranjska-M.Radić-Bos.Krupa)

Bike route starts in Bosanska Krupa and goes uphill for 4 kilometres (asphalt road) to settlement Vranjska and goes off the road M 14.2, and continues towards village Radić. The ride continues on narrow asphalt road for 6 km, runs uphill and downhill through villages Vranjska and Mali Radić. The view from the left side is on mountain Grmeč, while from the right side is on the Una Canyon, and riverbank with dominant peaks of Velika and Mala Gomila. Traffic is not too frequent so there are no potential dangerous risks for participants. In the village Mali Radić the route goes down to old Radić road, which is not used so often, therefore, it is not well maintained and provides the pleasure of riding on the road covered with stones, mud and puddles. The route consists of more downhill slopes and less uphill climbs and leads into the canyon of Šujnovac creek which leads to Bosanska Krupa. There are many places to take a rest and sightseeing in the area of "Pipe". Close to Bosanska Krupa there is an asphalt road that steeply goes toward the town where this route ends. The route is ideal for beginners.

Difficulty: II

Overall length: 20 km,

Asphalt: 12 km

Unpaved road: 8 km

Altitude: start/finish 176 m above sea level, maximum height is 380 m above sea level

Biciklistička ruta 2 (Bos.Krupa-Vranjska-Suvaja-Čardak-Bos.Krupa)

Start iz Bosanske Krupa, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, te nastavlja asfaltnim putem M14.2 prema Jasenici. Dolaskom na raskršće Karaula skreće se na makadamski put prema selu Suvaja. Vožnja se odvija kroz relativno šumovit predio sa srednjim usponima i padovima na kraćim distancama. Ulaskom u selo Suvaja put nastavlja kroz suvajsko polje i rijetko naseljeno selo. Vozeći putem desno pogled se pruža na uzvisine Grmeča, poznatije kao Turske Vode, dok sa lijeve na brežuljke i rijetku šumu. Izlaskom iz sela skreće se lijevo prema vikendicama gdje je loš makadamski put III kategorije, sa vožnjom kroz šumu sa jačim usponima i padovima po neravnom terenu. U tom dijelu dolazi se i do najviše uzvisine na toj stazi na oko 480 m/nm. Nakon 6 km izlazi se na makadamski put I kategorije (Bos.Krupa-Krnjeuša-Bos.Petrovac), gdje se dalje nastavlja put prema Bos.Krupi u relativnom blagom padu. Prelaskom 7 km po tom putu, izlazi se na put M 14.2 Bos.Krupa – Sanski Most na raskršću poznatom kao Čardak. Put nastavlja 8 km asfaltom prema Bos.Krupi sa blažim usponima, dok se od mjesta Vranjska vozi spust prema Bos.Krupi u dužini od 4 km, gdje se ruta i završava. Za rekreativce i aktivnije bicikliste.

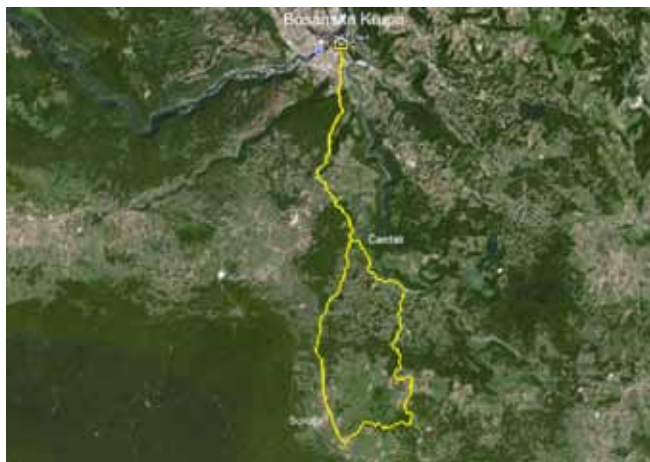

Težina staze: III

Ukupna dužina: 25 km,

Asfalt: 15 km

Makadam 10 km

Visinska razlika: start/cilj 176 m/nm, najviša visina 488 m/nm.

Bike Route 2 (Bos.Krupa-Vranjska-Suvaja-Čardak-Bos.Krupa)

Bike route starts in Bosanska Krupa and goes uphill for 4 kilometres (asphalt road) to settlement Vranjska and continues with the asphalt road M14.2 towards settlement Jasenica. At the crossroad Karaula turns on the macadam road towards village Suvaja. The route passes through the forest area with average uphill climbs and downhill slopes on short distances. After village Suvaja, route continues through Suvaja field and not so populated village. On the right side, a hilly area of the mountain Grmeč can be seen, which is also known as "Turske vode", while on the left side are the hills and forest. On the exit, the route turns left towards cottages and there is a bad macadam road of category III. The route passes through the forests with climbs and downhill slopes over rough terrain. With this route we come to the highest point on this trail at about 480 meters above sea level. After 6 kilometres the macadam road of I category starts (Bos.Krupa-Krnjeuša-Bos.Petrovac), and continues towards Bos.Krupa with slight downhill slope. After 7 km there is an exit on the road M 14.2 (Bos.Krupa-Sanski Most) at the crossroad known as "Čardak". The asphalt road continues for 8 km towards Bosanska Krupa with slight climbs, and from village Vranjska goes towards Bos.Krupa for 4 kilometres where the route ends. This route is for beginners and more active cyclists.

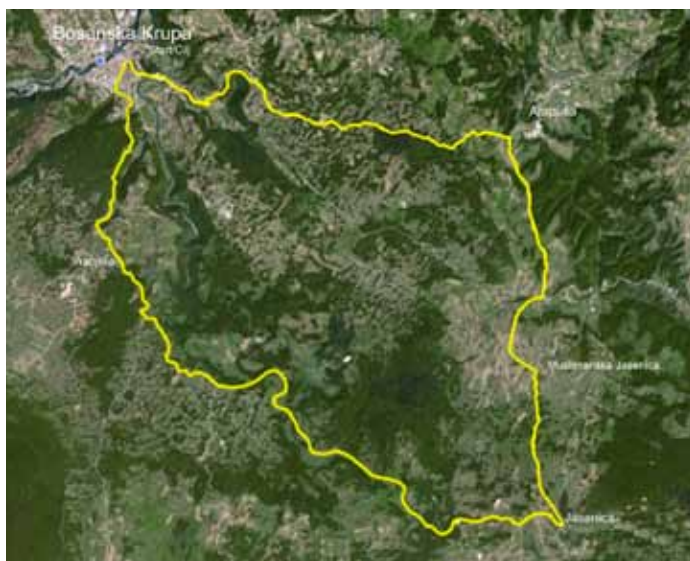

Difficulty: III

Overall length: 25 km,

Asphalt: 15 km

Unpaved road > 10 km

Altitude: start/finish 176 meters above sea level; maximum height is 488 meters above sea level

Biciklistička ruta 3 (Bos.Krupa-Jasenica-Zalin-Arapuša-Bos.Krupa)

Start iz Bosanske Krupe, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, te nastavlja asfaltnim putem M14.2 prema Jasenici do središta sela. Cijeli put je asfaltni sa usponima, te kraćim spuštanjima. Iz Jasenice se dalje vozi makadamskim putem prema selu Muslimanska Jasenica i Zalin lošim makadamskim putem kroz izuzetno ugodan predio gdje se smjenjuju uredeni brežuljci i šumoviti predjeli. Teži uspon ide uz vrlo loš makadamski put uništen bujicama iz sela Zalin prema raskrsnici puteva prema Arapuši. Dionica nastavlja dalje prema Bosanskoj Krupi, dobrim makadamskim putem do raskšća poznatijeg kao „Orasi“. Prelaz na asfaltni put i spuštanje prema naselju Zalug-Govedarnica niz jaku strminu gdje treba biti oprezan zbog nagli zavoja i motornog saobraćaja. Spuštanjem u dolinu stižemo u Bosansku Krupu.

Težina staze: III
 Ukupna dužina: 25 km,
 Asfalt: 15 km
 Makadam 10 km
 Visinska razlika: start/cilj 176 m/nm, najviša visina 488 m/nm.

Bike Route 3 (Bos.Krupa-Jasenica-Zalin-Arapuša-Bos.Krupa)

Bike route starts in Bosanska Krupa and goes uphill for 4 kilometres (asphalt road) to settlement Vranjska and continues with the asphalt road M14.2 towards settlement Jasenica. The entire road is covered with asphalt with climbs and downhill slopes. From Jasenica the macadam trail goes to village Muslimanska Jasenica and Zalin and continues through a very pleasant hilly area and areas covered with forest. From village Zalin to crossroads in village Arapuša you get by very bad macadam road damaged by floods. The route continues towards Bosanska Krupa, with a good macadam road to crossroads known as "Orasi". Then, the route continues by asphalt road and runs down towards Zalug-Govedarnica. Caution is needed due to sudden turns and traffic. The route ends in town of Bosanska Krupa.

Difficulty: III
 Overall length: 25 km,
 Asphalt: 15 km
 Unpaved road: 10 km
 Altitude: start/finish 176 meters above sea level, maximum height is 488 meters above sea level

Biciklistička ruta 4 (Bos.Krupa-Suvaja-Turske Vode-Zloimenjak-Mali Radić-Bosanska Krupa)

Start iz Bosanske Krupe, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, te nastavlja asfaltnim putem M14.2 prema Jasenici do raskršća za Suvaju. Nastavak puta je relativno dobrim makadamskim putem sa manjim usponima i padovima. Na raskršću prije sela Suvaja vozi se desno i prelazi na lošiji makadamski put, sa konstantnim usponom od 5 km, do područja Turske Vode. Vozi se kroz šumu i ovo je dionica za spremne vozače, koja iziskuje dobru fizičku pripremljenost. Dolaskom do područja Turske Vode, potrebno je napraviti odmor. Zatim se put nastavlja prema području Radičke Uvale kroz gusto šumovito predio sa usponima i padovima i dalje prema kamenolomu Zloimenjak gdje se može napraviti odmor, odakle se pruža pogled za kanjone Une i veliki predio naše i čuvene općine. Sa Zloimenjaka spuštanje prema naselju Mali Radić, te starom radićkom cestom prema Bosanskoj Krupi.

Težina staze: IV

Ukupna dužina: 40 km,

Asfalt: 12 km

Bike Route 4 (Bos.Krupa-Suvaja-Turske vode-Zloimenjak-Mali Radic-Bosanska Krupa)

Bike route starts in Bosanska Krupa and goes uphill for 4 kilometres (asphalt road) to settlement Vranjska and continues by M14.2 road towards the settlement Jasenica to the intersection for Suvaja settlement. The route continues by relatively good macadam road with minor climbs and downhill slopes. At the intersection, before the village Suvaja, the route goes to the right and gets to macadam road which is in very poor condition, with a constant uphill climb which is 5 kilometres long to the area known as Turske Vode. It is necessary to take a break once you reach this area. Then the route continues to Radičke Uvale field through forest area with uphill and downhill slopes and continues to Zloimenjak quarry where you can make a short stop and enjoy in a view of canyon Una. From Zloimenjak the route goes downhill to Mali Radic settlement and by old Radic road goes towards Bosanska Krupa.

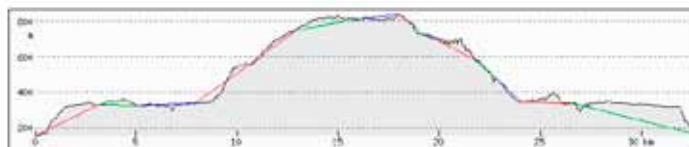

Difficulty: IV

Overall length: 40 km,

Asphalt: 12 km

Unpaved road: 28 km

Altitude: start/finish 176 meters above sea level maximum height is 830 meters above sea level

Bike Route 5 (Bos.Krupa-Perna-Sokolov kamen-Ćojluk-Bosanska Krupa)

Biciklistička ruta 5 (Bos.Krupa-Perna-Sokolov Kamen-Ćojluk-Bosanska Krupa)

Start iz Bosanske Krupe, putem M14 do naselja Halkići, te uspon putem između brda Kobiljnjak i Padež, uskim kolskim putem prema lokaciji „Remzin Do“, te dalji nastavak konstantim usponom prema visoravni Perna. Vozi se uskim srednje teškim putem koji se rijetko koristi, vijugavim usponom. Izlaskom na makadamsku cestu na Perni, krećemo se prema lokaciji Križ odakle dalje prema lokaciji poznatoj kao Mijića kuće. Dalje nastavak uskim šumskim putem prema lokaciji Sokolov kamen iznad kanjona Une u reonu Grmuškog mosta. Dolazak na lokaciju mora se „sa biciklom“, jer se radi o gustom niskom rastinju, gdje je gotovo nemoguće voziti, a na par mjesta potrebno je i nositi biciklo zbog dosta bodljikavog rastinja. Dolaskom na lokaciju pruža se fantastičan pogled na kanjon Une i Grmuško srbijanski plato, prema uzvisinama Grmeča. Pošto se radi o vrlo strmim liticama, mora se biti dosta oprezan u obilasku lokacije. Takođe spuštanje prema kanjonu se ne preporučuje zbog postojanja zaostalnih mina iz prošlog rata. Povratak je istim putem do Križa, a zatim preko brda Ćojluk povratak u Bosansku Krupu.

Težina staze: III

Ukupna dužina: 30 km,

Asfalt: 5 km

Makadam 25 km

Visinska razlika: start/cilj 176 m/nm, najviša visina 450 m/nm.

The route starts in Bosanska Krupa and goes to settlement Halkici (road M14), then continues up between hills Kobiljnjak and Padež by narrow trail to "Remzin Do" location, then, constantly goes up to highland Perna. The ride continues by narrow medium-difficulty trail that is rarely used. The trail exits on a macadam road Perna and then continues towards the location known as "Križ" and the location known as "Mijića kuća". Then, the route continues through forest towards location "Sokolov kamen" which is situated above the Una canyon. There is a magnificent view of the Una Canyon, Grmuško-Srbijanski plateau and mountain Grmeč. Since it is a very steep cliff, the caution is needed. Going downhill from there is not recommendable due to the mines from the last war. The return route goes toward Križ again and over the hill Ćojluk to Bosanska Krupa.

Biciklistička ruta 6 (Bos.Krupa-Krnjeuša-Bunari-Turske Vode-Bos.Krupa)

Start iz Bosanske Krupe, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, te nastavlja asfaltnim putem M14.2 prema raskršću Čardak, skreće se na makadamski put prema selu Krnjeuša, odnosno Bosanskom Petrovcu. Vožnja se odvija kroz relativno šumovit predio sa konstantnim usponom do prevoja Risova Greda, te predstoji spust prema selu Krnjeuša u dužini od 10 km. Nakon pređenih 25 km, počinje uspon prema jednom od vrhova Grmeča u dužini od 10 km, vrlo lošim uskim kolskim putem, koji zahtijeva izuzetnu fizičku spremnost, te se ova ruta ne preporučuje fizički nespremnim osobama. Nakon izlaska na visinu od preko 1000 m/nm put se nastavlja kroz gustu šumu do lokacije na kojoj se može vidjeti prirodni fenomen: izvor bistre pitke vode, a da oko tog reona nigdje nema veće uzvisine odakle bi voda dolazila i izbijala na tom mjestu. Tu se može napraviti odmor, u nedirnutoj prirodi te nastaviti par kilometara odakle kreće spust u dužini od 15 km do sela Suvaja. Spust je dosta naporan te treba praviti kraće stanke zbog odmora ruku. Iz sela Suvaja opet izlazimo na cestu M14.2 te nastavljamo do Bosanska Krupa. Na ovu turu se ne ide bez vodiča, jer se vozi terenu gdje nema naselja, niti signala mobitela. Za prolazak je potrebno 6 sati sa kraćim odmorima.

Bike Route 6 (Bos.Krupa-Krnjeuša-Bunari-Turske vode-Bos.Krupa)

The route starts in and goes uphill for 4 kilometres (asphalt road) towards the settlement Vranjska and continues by M 14.2 road to Čardak crossroad, then towards the village Krnjeuša (Bosanski Petrovac Municipality). The route passes through forest area with constant climb to Risova Greda pass, and then continues toward village Krnjeuša by steep slope in length of 10 km with very bad narrow trail, which requires better physical preparation and it is not recommendable for physically unprepared. On the height of over 1000 above sea level the route continues through the forest to the location where the natural phenomenon can be seen: the spring of fresh potable water although there are no higher grounds in the area so it is not quite clear from where the water comes from. Then, the route continues toward village Suvaja by 15 kilometres long steep road. Since the trail is very difficult it is necessary to take a break from time to time. From village Suvaja we take the road M14.2 and continue to Bosanska Krupa. It is necessary to have a guide on this route since there are neither settlements nor cell phone signals present. The tour lasts for 6 hours including short breaks.

Biciklistička ruta 7 (Bos.Krupa-Jovanović bunar-Bosanska Krupa)

Start iz Bosanske Krupa, konstantnim usponom asfaltnim putem u dužini 4 km prema naselju Vranjska, te nastavak makadamskim putem prema kamenolomu Zloimenjak. Nakon kraćeg odmora slijedi nastavak uspona prema lokaciji Radičke Uvale. Konstantan uspon uskim makadamskim putem kroz pravu šumu je težak ali i pun doživljaja krivudajući šumskim putem. Dolaskom na Radičke uvale potreban je odmor, gdje se za to može iskoristiti šedrvan. Dalje put se nastavlja usponom prema ciljnoj lokaciji poznatijom kao „Jovanović bunar“ gdje postoji izgrađena lovačka kuća i stigli smo na nadmorsku visinu od 982 m/nm. Na toj lokaciji se pravi duži odmor, potreban za osvježanje i ostalo. Savladali smo konstantan uspon od 18 km, ali nakon boravka na toj lokaciji brzo zaboravljamo na umor. Povratak se odvija istim putem, ovaj put uz spust gdje je obavezna upotreba kacige i dosta opreza, jer predio cijelim putem do silaska na reon Vranjske obiluje strmim dolinama pored puta, a put je makadamski na kojem se smijenjuje kamenje, rupe i pjeskoviti dijelovi. Dolaskom na M14.2 spuštamo se u Bosansku Krupu.

Bike Route 7 (Bos.Krupa-Jovanovic bunar-Bosanska Krupa)

The route starts in Bosanska Krupa and goes up for 4 kilometres (asphalt road) towards settlement Vranjska and continues by macadam road toward Zloimenjak quarry. After a short break the route continues up towards the location Radicke Uvale. The break is necessary at the location of Radicke Uvale where the gazebo can be used. Then, the route continues up towards location known as "Jovanovic bunar" where at 982 meters above sea level hunting lodge can be found. Longer break is recommendable at this location which is necessary for refreshment. The return route goes back by the same trail but this time downhill where the use of helmet is necessary as well as a lot of caution due to steep valleys and macadam road covered with rocks, holes and sandy parts. After reaching M 14.2 road we are going down towards Bosanska Krupa.
